

GRAND COUNTY SCHOOL DISTRICT

264 SOUTH FOURTH EAST
MOAB, UTAH 84532
259-5317

June 5, 2016

To Whom It May Concern:

On December 14, 1987 the Asbestos Hazard Emergency Response Act (AHERA) became effective, requiring the school district to inspect all buildings for friable and non-friable asbestos-containing materials and develop management plans which outline actions to be taken to control the release of asbestos fibers.

All schools in the Grand County School District have been inspected by accredited asbestos inspectors.

The district is required to inform you that the following school buildings do contain some asbestos:

Grand County School District Office 264 S. 400 East
Grand County Middle School 439 S. 100 East
Sundwall Preschool 190 E. 100 North

Each building has a management plan on file. Any person who may be involved in remodeling or construction work must check the schools AHERA Management Plan. Frank Melo is the designated person for the schools and needs to be contacted if any work is to be done in the schools. Frank may be contacted at his office at 760 S. 400 East or by phone at 435-259-8515. Contractors and utility installers must inspect the management plan and consult with Frank before any work can be started.
