The purpose of this policy is to delineate the students' acceptable use of district technology services.

2. Policy:

The Grand County School District utilizes a Local Area Network (LAN) and the "Internet" for use by faculty and students in conjunction with Utah Education Network (UEN). The School District shall encourage students to use such tools by establishing individual Internet accounts, which may be used at the discretion of the schools. Such use shall be limited to times and circumstances that will not interfere with the scheduled education programs of schools and consistent with acceptable use policies of the district.

Any person who is granted a network account shall be referred to herein as an "account holder". Unless transmitted to others by the account holder or with the account holder's permission, the information created by the network account holder shall be deemed confidential information of the account holder and Grand County School District. However, the School District reserves the right to monitor the information contained in any user account.

Internet accounts are for educational purposes. Any use of an Internet account inconsistent with such educational purposes shall be grounds for terminating the account and/or confiscating the information saved in the account.

There should be no expectation of privacy for any file or device that is placed or connected to the Grand County School District computer network.

- 2.6.3** Do not demonstrate the problem to other users.
