

Leadership and Volunteer Opportunities

SUU Governor's Honors Academy

The Academy is organized to provide Utah high school students with an opportunity to learn, lead and interact with some of the foremost leaders in business, technology, humanities, science, education, communication and social science. The Academy incorporates an intense learning experience that takes place in the classroom and in Southern Utah's beautiful landscapes. Those who are current **JUNIORS** are welcome to apply.

Dates of the Academy: June 24 – July 2

Application Deadline: March 1, 2019

Questions: (435) 586-7770

Boys & Girls State

American Legion Auxiliary Boys State and Girls State are nonpartisan programs that teach young men and women responsible citizenship and love for Country. High school juniors spend an intensive week of study, working together as self-governing citizens at Auxiliary-sponsored Boys and Girls State programs in every state. Participants learn how to participate in the functioning of their state's government in preparation for their future roles as responsible adult citizens. Two boys and two girls are selected from each State program to attend Boys and Girls Nation, a national government training program. Nation "senators" meet for a week in Washington, D.C., where they run for political office, campaign for the passage of legislation and possibly meet with state Representatives and Senators. Capping off the week of Nation is oftentimes a meeting with the President of the United States at the White House. Participants earn 3 college credits. More information can be found [HERE](#).

Science Fair Scholarships

Utah Symantec Software Scholarships

Applicants must create and enter a software-based science project into a Utah regional science fair. Applicants are selected to compete in a Utah regional science fair by qualifying in both the school and district science fairs. Students must register as a Symantec Software scholarship participant when they enter the regional science fair. Participants do not have to win at the regional science fair level, but they must compete at this level to be chosen for a Symantec Software Scholarship.
